

CALL FOR APPLICATIONS

The Master Mekong Pharma publishes his call for application for the academic year 2018-2019.

Date of publication: **APRIL, 2ND 2018**

PRESENTATION OF MASTER'S DEGREE

THE MASTER MEKONG PHARMA is a two-year term of postgraduate education, delivered in Southeast Asia, taught in the French language by professors from French universities. Its purpose is to train high level specialists in the medical drug sciences field in the three countries of Southeast Asia. It opens the way for professionals to work in various agencies, including control laboratories, medical drug agencies, central government branches, hospitals, research laboratories, universities, pharmaceutical and agri-food industries, ...

Its main target: Pharmacists holding degrees from the universities of Cambodia, Laos, and Vietnam. It leads them to the French Master's 2 degree, which enjoys international recognition. Graduated medical doctors, biologists and chemists can also join the Master's degree.

The Master's in pharmaceutical sciences is coordinated and supported by the Pierre Fabre Foundation. It receives support from the Francophone University Agency and French Cooperation.

That training is an opportunity for participants to integrate a sound, world-class network of medical drug specialists.

TRAINING OFFERED: MASTER 2

3 to 4 months of theory lessons and hands-on courses + 6 months of internship validated by a thesis.

MASTER 2 QUALITY OF MEDICATION

Diploma issued by the Paris Descartes University. Courses delivered in Vietnam at the Hanoi University of Pharmacy. The training puts students in line to get their Master's 2 degree in medical drug sciences, specializing in "quality of healthcare products".

MASTER 2 CLINICAL PHARMACOLOGY

Diploma issued by the Toulouse III Paul Sabatier University. Courses delivered in Vientiane, at the University of Health Sciences of Laos. The training puts students in line to get their Master's 2 degree in health biology, "pharmacological innovation and medical drug positions" program.

MASTER 2 PHARMACEUTICAL DEVELOPMENT OF NANOMEDICINES

Diploma issued by the University of Angers. Courses delivered at the Ho Chi Minh City Medicine and Pharmacy University. The training puts students in line to get the Master's 2 degree in medical drug sciences, specializing in "innovation and transfer", nanomedicine program.

ENROLLMENT: PROCEDURE AND FEES

The postgraduate training segments under the Master Mekong Pharma program are open to all degree-holding pharmacists. Professionals (pharmacists, doctors, biologists, and chemists) who would like to broaden their knowledge in the field of medical drugs may enroll for certain educational courses. The students will be selected after passing a written test.

To apply, send the following documents to Mrs. Florence DELCHER:

- Motivation letter
- Updated Curriculum Vitae
- Copy of the last university diploma
- Copy of the language diploma (English and/ or French)
- Copy of the passport
- Recommendation letter

The contributions to the university registration fees are 400 USD for the Master's 2.

The selected nominees will receive a scholarship from the Foundation Pierre Fabre for the academic year 2018-2019 (all students will be eligible to receive the scholarship should they meet the criteria).

Deadline to apply: **June, 8th 2018**
